AECOM
Built to deliver a better world

Staying power

More than 60 years of commercial nuclear power experience

The nuclear power industry demands a highly specialized, diverse skillset and knowledge base. As the engineer and/or constructor of more than 39,000 megawatts, we provide support for new nuclear technologies, the emerging small modular reactor market, operating plant technical services including major component replacements, and facilities that support the nuclear fuel cycle.

Learn what our 60 years of nuclear experience can do for you at **aecom.com** and **@AECOM**.
