CANM® Innovative Manufacturing Solutions
to Benefit the Small Modular Reactor/Advanced Reactor Industry and the Legacy Reactor Fleet

The Center for Advanced Nuclear Manufacturing (CANM®), operated by Concurrent Technologies Corporation (CTC), develops and transitions advanced manufacturing technologies to support the needs of the U.S. nuclear power industry's manufacturing base. CANM's primary mission is to identify, develop, execute, and implement advanced manufacturing technologies to improve the manufacturability of new and legacy designs for commercial nuclear power generation.

- Conducting design for manufacturing analysis
- Solving first-of-a-kind manufacturing issues
- Prototyping new component designs and manufacturing solutions
- Developing and transitioning innovative manufacturing technologies
- Helping manufacturers become more competitive

CANM® Center for Advanced Nuclear Manufacturing
