

ENCORE™ FUEL WE'RE CHANGING NUCLEAR ENERGY ... AGAIN

Westinghouse Electric Company LLC

Westinghouse EnCore™ Fuel is a game-changing accident-tolerant fuel solution that is intended to provide design-basis altering safety and estimated economic benefits of up to hundreds of millions of dollars, as well as greater uranium efficiency.

As the leading supplier of nuclear fuel globally, Westinghouse has access to a world-class network of research, design and manufacturing partners. We are collaborating to deliver EnCore Fuel on an aggressive, accelerated schedule.
