ANS

PSA 2019

April 28 – May 3, 2019 ♦ Charleston, South Carolina

For over 40 years, the ANS biennial topical Conference on Probabilistic Safety Assessment (PSA) has been a major nuclear safety forum to discuss major probabilistic risk and safety topics worldwide. PSA 2019 in Charleston, South Carolina, will be of interest to those working in traditional and nontraditional applications, with over 50 sessions on small modular reactor, advanced reactor, multi-unit and full site PSA, the human interface and HRA, nuclear facility safety, dynamic PSA, waste cleanup, reliability of systems/structures/components, natural phenomena, security, decommissioning, risk-informed applications, internal & external events, and many others. The role of probabilistic methods in understanding uncertainties and improving the safety and security of nuclear facilities, and activities will be highlighted. Network with PSA and risk & reliability colleagues from across the globe in beautiful Charleston!
