

Dominion Energy has announced organizational changes tied to a new financial and operating reporting structure that will take effect on December 1. Two executives have been named to the new position of co-

Blue

Leopold

Reid

chief operating officer: **Robert M. Blue**, currently executive vice president and president and chief executive officer of the Power Delivery Group, and **Diane Leopold**, currently executive vice president and president and CEO

of the Gas Infrastructure Group. Also, **Carter M. Reid**, currently executive vice president and chief administrative and compliance officer, will become chief of staff for Dominion Energy and president of Dominion Energy Services.

Brand

Christoph Brand will become the new chief executive officer of Switzerland's Axpo Holding AG—operator of the Beznau nuclear power plant—by the summer of 2020 at the latest. Currently, Brand is the deputy CEO of Tamedia AG. He succeeds **Andrew Walo**, who is leaving the company. On October 1, Axpo chairman **Thomas Sieber** took over the operative management of the utility.

Exelon Corporation has appointed **Calvin G. Butler Jr.**, chief executive officer of Baltimore Gas and Electric Company, as interim CEO of Exelon Utilities. The appointment follows the retirement of

Anne Pramaggiore. Butler is an 11-year veteran of Exelon and has more than 25 years of leadership experience in the utilities industry and in regulatory, legislative, and public affairs.

DTE Energy has named **Peter Dietrich**

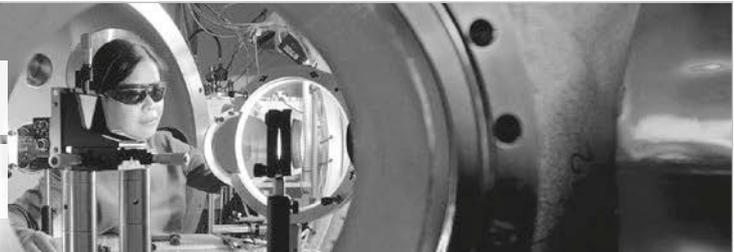

Dietrich

senior vice president and chief nuclear officer. Dietrich, who has nearly three decades of experience in the commercial nuclear industry, is responsible for overall operations at Fermi-2. Prior to joining DTE, Dietrich served as the chief nuclear officer for the Emirates Nuclear Energy Corporation and Nawah Energy Company. He has also served in leadership roles for Southern California Edison, including as site vice president and chief nuclear officer. Dietrich succeeds **Paul Fessler**, who has been with DTE for more than 41 years. Fessler will remain at DTE to serve as an advisor to Dietrich during the transition.

Ph.D. FELLOWSHIP OPPORTUNITIES

The DOE NNSA SSGF program is open to senior undergraduates or students in their first or second year of graduate study.

The Department of Energy National Nuclear Security Administration Stewardship Science Graduate Fellowship (DOE NNSA SSGF) provides outstanding benefits and opportunities to U.S. citizens or permanent resident aliens pursuing a Ph.D. in stewardship science areas, such as **properties of materials under extreme conditions and hydrodynamics, nuclear science, or high energy density physics.**

The fellowship includes a 12-week research experience at Lawrence Livermore National Laboratory, Los Alamos National Laboratory or Sandia National Laboratories.

APPLICATIONS DUE 1.8.2020
www.krellinst.org/ssgf

Full list of benefits online.

The DOE NNSA LRGF program is open to U.S. citizens who are entering their second (or later) year of doctoral study.

The Department of Energy National Nuclear Security Administration Laboratory Residency Graduate Fellowship (DOE NNSA LRGF) gives students the opportunity to work at DOE NNSA sites while pursuing degrees in fields relevant to nuclear stockpile stewardship: **engineering and applied sciences, physics, materials, or mathematics and computational science.**

Fellowships include at least two 12-week research residencies at Lawrence Livermore, Los Alamos or Sandia national laboratories, or the Nevada National Security Site. Fellows are encouraged to extend these stays to conduct thesis research and other studies at the facilities.

APPLICATIONS DUE 3.4.2020
