

SMARTER ENERGY FOR A SMARTER WORLD

The future of energy starts with smart. NuScale's groundbreaking design allows us to reduce the size of our reactors and optimize operations staff to create a compact, carbon-free energy source that's as versatile and productive as it is safe. NuScale Power Modules provide flexible, dependable power delivery for multiple applications with unprecedented safety, reliability and scalability. So you always have the power you need, at any scale. Now that's smart. nuscalepower.com
