

Quantifiable Advantages

Our latest advancement in containment high bay lighting is the BIRNS Quantum-C™, providing powerful LED illumination for high ceiling and crane applications in a more compact footprint. Its ~109,000 hour lamp life minimizes maintenance and its 21,000 lumen brilliance enhances safety and productivity in a wide area. The seismically qualified BIRNS Quantum-C also features an exclusive breather system, so it withstands containment integrated leak rate testing at full pressure.

Reduce maintenance, increase worker safety and efficiency
