

Non-Safety related and Safety related

We've got it covered

with Foxboro Evo™
and
Triconex Tricon, 1E Certified

Reduce risk and increase profit

The Foxboro Evo process automation system delivers revolutionary levels of reliability and performance to keep your plant up and running. It eliminates any single point of failure. It provides unmatched cyber security. It enables advanced management for abnormal situations. And it's unified with the industry-leading Triconex® safety system. Result: unique operational integrity, insight and agility to amplify the contributions of everyone in the plant. Stay compliant, competitive and profitable.
