

SONIC SYSTEMS INTERNATIONAL

#1 In Nuclear Outage Support

NDE Capabilities

Personnel Trained and Certified per ASME Section XI, SNT-TX-1A, CP189
Ultrasonic Testing (UT)
Manual & Automated
Conventional/Phased Array
EPRI/PDI Qualified
DM, WOL, IGSCC, RPV, Nozzle IR, Bolting, Etc...
Visual Testing (VT)
BOP (MT, PT, VT)
FAC - Program
Certified Weld Inspectors
RT Personnel
Snubbers & Turbine
Eddy Current

Refuel & Reactor Maintenance

Reactor Vessel Assembly and Disassembly
BWR & PWR Refueling
IVVI - VIP and MRP
Fuel Receipt
Control Rod Drive (CRD) rebuild and exchange
Dry Cask Operations

QA/QC Capabilities

Fully Certified and Accredited Quality Program
3rd Party Oversight
ANSI N45.2.6, ANSI N45.2.24, NQA-1, SNT-TC-1A, and CP-189
NDE & QC Level II/III
NDE & QC Project Management
Source Inspections/Surveillance
Lead Auditors
Mechanical/Dimensional
Electrical
Document Package Reviews
In full compliance with 10CFR50 Appendix B and 10CFR21

98% Employee Retention
Extensive Employee Training and Development
Safety Conscious Work Environment
SSI Safety Rating (EMR) Consistently Better Than Industry Average

Celebrating 40 Years Supporting The Nuclear Industry

"A Powerful Part of Your Team"
