Recognized **Leader** in Radwaste Management

Helping you succeed for over 4 decades

WMG is celebrating its 45th anniversary of providing sustainable, innovative services for radioactive materials and waste management professionals. We are a leader in nuclear and radiological engineering, offering a range of specialized services to address the diverse needs of the commercial nuclear industry. In addition to performing the functions listed below, we also offer advice and peer-review in a best-practices capacity. Our services and review capabilities include:

DOSE ASSESSMENTS

Our Radiological Engineering expertise encompasses comprehensive assessments, including Off-Site Dose, Internal Dose, Site Boundary Dose, System/Equipment Shielding, Emergency Planning, and Dose-to-Public evaluations.

SEGMENTATION PLANNING

WMG are the go-to experts for Segmentation Planning, collaborating with clients to optimize the planning process for component management and packaging. Irradiated hardware, reactor internals, steam generator and other large components.

WASTE DISPOSAL OPTIMIZATION

WMG provides best practices guidance for waste management, ensuring that clients maximize opportunities for waste disposal by effectively classifying, characterizing, and packaging waste for optimized disposal.

LINER SERVICES

WMG specializes in the production of various metal liners designed to interface with commonly used casks in the industry, ranging from 8-120s to 14-215s. We offer standard designs with 1/4" thick steel shells. Depending on your needs, we can offer liners that can be lifted from the lid or from the body and we are happy to supply liners with secondary lids. With WMG, you're not just getting liners; you're investing in innovation, precision, and a commitment to elevating industry standards.

RADMAN™ A Platform of Software & Services

At 90 of 93 operating nuclear power plants (NPPs) in the US, all US NPP decommissioning projects
Working with several US and Canadian nuclear related government installations
Harmonized with IAEA.

TRUST

Trust is fragile. It is difficult to earn and easy to lose. As our industry has evolved, companies have come and gone, yet WMG continues to thrive, in large part because of the trust our clients have in our capabilities. Our success is entirely dependent upon your success.

Recent years have put increased pressure on our industry, and we are all asked to do more with less in the name of survival. Experienced professionals are retiring from the industry and in many cases, this process knowledge and expertise isn't being replaced.

As a proud, independent, family-owned small business, specializing in software, engineering, characterization and management of radioactive material, our employees have always been our greatest asset. Our employees are recognized experts in the industry and highly respected by clients, competitors, regulators and industry groups for their capabilities and experience.

Even with all of the new challenges we face, our mission of providing excellence in radioactive waste management through service, innovation, value and integrity remains unchanged, and more important than ever.

Allow us the opportunity to earn your trust and we will show you what it means to have a partner in the industry that is just as committed to your success as you are.

Sincerely,
Kevin Tuite
President and CEO
WMG, Inc.
