## *High Activity Filter Processing*

### **WMG's Encapsulation Service is Fully Operational**

Within 30 days of implementation of the recent waste acceptance criteria change, WMG delivered the first filter liner for disposal as Class A waste.

Since we began full scale commercial operation, WMG has:

- *Received 85 shipments of filters*
- *Safely processed over 10,000 filters*
- *Disposed of 67 liners of filters with ZERO compliance issues*

WMG has saved our clients over \$6 million in disposal costs!

WMG provides a seamless, fully integrated, one-stop solution for your high activity filter disposition through;

- *Expert characterization to minimize risk*
- *Prequalification of incoming shipments to avoid surprises*
- *Providing representative Part 61 sampling as needed*
- *Assurance that the process meets all regulatory and WAC requirements*

**WMG is an independent, family owned business committed to saving you time, dose and money**
