

WE ARE RADIOACTIVE MATERIALS EXPERTS

**One team for
complete solutions**

**Trust Southwest Research Institute for
unbiased, independent analysis.**

- Radioactive waste storage, transportation, and disposal
- Environmental and regulatory evaluations at nuclear sites

We are multi-disciplinary problem solvers.

- Environmental, hazards, safety, and risk assessments
- Radiochemistry (hot lab) and assays (organic and inorganic)
- Hydrological and geomechanical modeling
- Structural health and aging management monitoring and evaluation
- Public outreach and stakeholder engagement
