

Invest in Your Future

ANS Mentoring Program

Sunday, June 24, 2012

5:00 - 6:00 pm

Location:
McCormick Room

The Mentoring Program is a unique opportunity for Mentors to invest in the future by connecting with the next stars (new members, first-time meeting attendees, and student members) of the nuclear industry. It's a chance for those new to the profession to connect with "those in the know," experienced professionals with real-world knowledge to share.

What are the benefits for Mentors and Protégés?

Mentors

- Influence the future
- Keep up to date
- Leave a legacy

Protégés

- Fast track a career
- Get individual attention
- Build a professional relationship

If you are the next star of the nuclear industry or you wish to catch a star, sign up today to participate in the ANS Mentoring Program. You'll be given information to guide you and support from previous program participants. Of course, you'll be connected with someone whose interests match your own with the potential for lifelong learning and friendship.

Yes. I want to be a: _____Mentor _____Protégé
