### Assist. General Chairs

Gilbert J. Brown PhD, University of Massachusetts, Lowell  
Dianne M. Quintero, FPL Energy Seabrook, LLC  
Steven L. Stamm, Shaw Stone & Webster Nuclear Services

Dear:

On behalf of the American Nuclear Society, and as General Co-Chairs of the 2007 ANS Annual Meeting, which will be held in Boston, MA, June 24-28, 2007, we are requesting your financial support for this very important event. The theme of the meeting is "It's All About the People: The Future of Nuclear." More than one thousand attendees are expected to attend this meeting, representing every field of nuclear science and technology from across the United States and many countries throughout the world.

We have a distinguished list of government and industry leaders who will address the theme of the meeting. We are also planning several outstanding special events and activities that will provide an opportunity for you to interact with colleagues and new acquaintances and make attendance at the meeting more enjoyable. Funds from registration fees and ticket sales for each of the events cover only a small portion of these expenses - that is why we are soliciting your organization to consider a financial contribution to the 2007 ANS Annual Meeting.

Your generous support will be acknowledged in the Preliminary Meeting Program, which will be sent to all ANS members, in the Official Meeting Program which is distributed to all meeting attendees, and on posters and signs displayed throughout the meeting and special events. The ANS Webpage for the 2007 Annual Meeting will also be updated with your sponsorship information.

Students and attendees at the ANS 2007 Annual meeting will benefit from your generosity and support. We thank you for your consideration of this enclosed request and look forward to seeing you in Boston in June. If you have any questions or concerns please contact our Fundraising Chair, Michael Lewis, at 603-773-7189.

Best Regards,

J. Art Stall  
Senior Vice President, Nuclear  
Florida Power & Light

Best Regards,

David P. Barry  
President, Shaw Stone & Webster  
Nuclear Energy
