

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 93, NUMBER 1, MAY 1986

CONTENTS

- vii Editorial: In Appreciation *John Kallfelz*
- ix Editorial: In Appreciation *Dan Cacuci*

TECHNICAL PAPERS

- 1 Monte Carlo Simulation of the Gamma Dose Rate in a Loss-of-Water Accident at the North Carolina State University Research Reactor *Joseph M. Doster, Brit E. Hey*
- 13 One-Dimensional Models for Neutral Particle Transport in Ducts *Edward W. Larsen, Fausto Malvagi, G. C. Pomraning*
- 31 Multilevel Analysis of the Low-Energy ^{239}Pu Cross Sections *R. B. Perez, G. de Saussure, N. M. Larson, R. L. (Roger) Macklin*
- 43 Capture Cross Sections and Gamma-Ray Spectra from the Interaction of 0.5- to 3.0-MeV Neutrons with Nuclei in the Mass Range $A = 63$ to 209 *J. Voignier, S. Joly, G. Grenier*
- 57 Experimental Effective Atomic Numbers for the Photoelectric Process in Some Alloys at 84 and 145 keV *K. Siddappa, N. Govinda Nayak, K. M. Balakrishna, N. Lingappa*
- 62 Vortex Methods for Free Interface Problems *Y. T. Chan, S. Banerjee*
- 69 Parallel Processing Algorithms for the Finite Difference Solution to the Navier-Stokes Equations *Joseph M. Doster, Matt B. Richards*
- 78 A Theory of Fuel Management via Backward Diffusion Calculation *Yung-An Chao, Chuan-Wen Hu, Chang-An Suo*
- 88 Location Analysis for Multiple Gas Tag Releases *F. Schmittroth*

TECHNICAL NOTES

- 97 Dimensional Analysis of Small-Scale Steam Explosion Experiments *K. Huh, M. L. Corradini*

(Continued)

CONTENTS

(Continued)

- 105** Additional Remarks on the Number of Collisions Required to Slow Down a Neutron *Paul Reuss*

CORRIGENDUM

- 109** Total Charged-Particle Emission Cross Sections for 9.4- and 11-MeV Neutron Bombardment of Type 316 Stainless Steel *M. Amad, S. L. Graham, S. M. Grimes, H. Satyanarayana, S. K. Saraf, S. Stricklin*
