CONTENTS / NOVEMBER 2000—VOL. 38, NO. 3

## **SPECIAL ISSUE ON BERYLLIUM TECHNOLOGY FOR FUSION**

- iii Comments / *George Miley*
- vii Associate Editor's Comments / *Ulrich von Möllendorff*
- ix Guest Editor's Comments / *Francesco Scaffidi-Argentina*

### **TECHNICAL PAPERS**

- 277 Comparative Strength Analysis and Thermal Fatigue Testing of Be/CuCrZr and Be/GlidCop Joints Produced by Fast Brazing / *Alexander Gervash, Igor Mazul, Nikolai Yablokov, Anatoly Ganenko*
- 283 Steam Chemical Reactivity of Beryllium Pebbles and Beryllium Powder / *R. A. Anderl, R. J. Pawelko, G. R. Smolik, F. Scaffidi-Argentina, D. Davydov*
- 290 Experimental Investigations on the Thermal and Mechanical Behavior of Single-Size Beryllium Pebble Beds / *M. Dalle Donne, A. Goraieb, G. Piazza, F. Scaffidi-Argentina*
- 299 Mechanical Behavior of Monosized and Binary Beryllium Pebble Beds / *Jörg Reimann, Matthias Behnke*
- 310 Measurement of the Heat Transfer Parameters in Infiltrated Binary Beryllium Beds: Comparison Between the Results with PEHTRA and SUPER-PETRA / *M. Dalle Donne, A. Goraieb, G. Piazza, F. Scaffidi-Argentina*
- 320 Influence of Temperature and Pressure on the Beryllium Pebble Bed Electrical Resistivity / *E. Alves, L. C. Alves, M. F. da Silva, A. A. Melo, J. C. Soares, F. Scaffidi-Argentina*
- 326 Application of Beryllium as First-Wall Armor for ITER Primary, Baffle, and Limiter Modules / *A. Cardella, V. Barabash, K. Ioki, M. Yamada, T. Hatano, Y. Ohara, P. Lorenzetto, M. Merola, I. Mazul, Y. Strebkov*
- 334 Heat Shock Tests on Beryllium Samples Before and After Neutron Irradiation / *A. Lodato, M. Rödiger, R. Duwe, H. Derz, J. Linke, R. Castro, A. Gervash*
- 338 An Assessment of the Tensile and Fracture Toughness Data Generated in a Beryllium Irradiation-Test Program / *D. R. Harries, M. Dalle Donne, F. Scaffidi-Argentina*
- 350 Helium and Tritium Behavior in Neutron-Irradiated Beryllium / *I. B. Kupriyanov, V. V. Vlasov*
- 357 Erosion and Deuterium Retention Investigation of Mixed W-Be Layers on Beryllium in Experiments on Plasma Disruption Simulation / *S. N. Korshunov, V. I. Vasiliev, M. I. Guseva, V. M. Gureev, L. S. Danelyan, V. V. Zatekin, V. S. Kulikauskas*

(Continued)

# CONTENTS / NOVEMBER 2000—VOL. 38, NO. 3

(Continued)

- 363** Deuterium Trapping in Ion-Implanted, Thermally-Grown Oxide Layers and Codeposited Beryllium Oxide / *Andrey Markin, Alexander Gorodetsky, Francesco Scaffidi-Argentina, Heinrich Werle, Chung H. Wu, Andrey Zakharov*
- 369** Negative Transferred-Arc Cleaning: A Method for Roughening and Removing Surface Contamination from Beryllium and Other Metallic Surfaces / *Richard G. Castro, Kendall J. Hollis, Carl J. Maggiore, Alicia Ayala, Brian D. Bartram, Russell P. Doerner*
- 376** Tritium Loss in Molten Fluoride Systems / *Glen R. Longhurst, Robert. A. Anderl, R. Scott Willms*
- 384** A Unique Beryllium Carbide Thin Film: Synthesis, Chemical, and Thermal Characterizations / *Yixiang Xie, Richard B. Stephens, Nicholas C. Morosoff, William J. James*

## DEPARTMENTS

- 391** Technical Reviewers
- 393** Volume 38 Indexes
- xiii Volume 38 Contents
