

# Fusion Science and Technology

CONTENTS / JULY/AUGUST 2005—  
VOL. 48, NO. 1

Proceedings of the  
Seventh International Conference on  
Tritium Science and Technology  
Baden-Baden, Germany  
September 12–17, 2004  
Guest Editor: Chris Caldwell-Nichols

xiii Comments / *Nermin A. Uckan*

xv Preface / *Manfred Glugla*

## TRITIUM PROCESSING, TRANSPORTATION, AND STORAGE

- 3 ITER Fuel Cycle Development: EU-PT Activities / *D. K. Murdoch, R. Lässer, M. Glugla, A. Mack*
- 11 Successful Experimental Verification of the Tokamak Exhaust Processing Concept of ITER with the CAPER Facility / *B. Borschein et al.*
- 17 Numerical Simulation of Membrane Reactor for Detritiation of Plasma Exhaust Gas / *K. Munakata, B. Borschein, D. Corneli, M. Glugla*
- 23 Thermodynamic Changes in Pd(Pt, Rh) Solid Solutions due to  $^3\text{He}$  Formation During Tritium Storage / *I. Moysan, S. Thiébaud, J. Demoment, B. Décamps, A. Percheron-Guégan*
- 29 Performance of ITER-Relevant Cryopump Panels for Tritiated Gases / *Christian Day et al.*
- 35 Tritium Superpermeability: Experimental Investigation and Simulation of Tritium Recirculation in "Prometheus" Setup / *R. K. Musyaev et al.*
- 39 Minimisation of the Hydrogenic Inventory of the ITER Neutral Beamline and Torus Cryo-Sorption Pumps / *M. Wykes*
- 43 Tests of Tritium Pellet Injector TPI-1 Under Closed Cycle Mode / *A. I. Vedeneev et al.*
- 47 Tritium Pumps for ITER Roughing System / *Alexander Antipenkov, Christian Day, Rainer Lässer, August Mack, Robert Wagner*
- 51 Studies on Hydrogen Extraction Characteristics of Proton-Conducting Ceramics and Their Applications to a Tritium Recovery System and a Tritium Monitor / *M. Tanaka et al.*
- 55 Memory Effects in Measurements of Low Tritium Concentrations as Required for the Outlet of the TEP System of the ITER Fuel Cycle / *D. Corneli et al.*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 59 Shell Temperatures for a Single-Heater Diffuser / *J. E. Klein*
- 63 Interlinked Test Results for Fusion Fuel Processing and Blanket Tritium Recovery Systems Using Cryogenic Molecular Sieve Bed / *Toshihiko Yamanishi et al.*
- 67 Investigation of Isotope Effects in the Gas Streams Supplied by a 1:1 ITER Storage Bed Using a Micro Gas Chromatography / *S. Beloglazov, M. Glugla, R. Wagner, E. Fanghänel, S. Grünhagen*
- 71 Study on Helium Blanketing Effect of Hydrogen-Storage Alloy / *Fan Ying, Tan Yun*
- 75 Performance of 500kCi Tritium Storage Vessel for WTRF / *S. Paek et al.*
- 79 Metal Hydride Wall Stress Measurements on a Four-Inch Short (FISH) Bed / *E. G. Estochen, J. E. Klein*
- 83 Palladium-Coated Kieselguhr for Simultaneous Separation and Storage of Tritium / *Robert H. Hsu, James E. Klein*

## DETRITIATION, PURIFICATION, AND ISOTOPE SEPARATION

- 91 Processing Tritiated Water at the Savannah River Site: A Production-Scale Demonstration of a Palladium Membrane Reactor / *Kevin L. Sessions*
- 97 TRENTA Facility for Trade-Off Studies Between Combined Electrolysis Catalytic Exchange and Cryogenic Distillation Processes / *I. Cristescu et al.*
- 102 Water Detritiation: Better SCK•CEN Catalysts for Liquid Phase Catalytic Exchange / *Aimé Bruggeman, Johan Braet, Sven Vanderbiesen*
- 108 A New Hydrophobic Catalyst for Tritium Separation from Nuclear Effluents / *I. Popescu, Gh. Ionita, I. Stefanescu, A. Kitamoto*
- 112 Endurance Test for SCK-CEN Catalytic Mixed Packing, Proposed for Water Detritiation System at JET / *Gh. Ionita et al.*
- 116 Experimental Investigation in Order to Determine Catalytic Package Performances in Case of Tritium Transfer from Water to Gas / *Anisia Bornea, M. Peculea, M. Zamfirache, Carmen Varlam*
- 120 Modeling of the Process of Three-Isotope (H, D, T) Exchange Between Hydrogen Gas and Water Vapour on Pt-SDBC Catalyst over a Wide Range of Deuterium Concentration / *O. A. Fedorchenko, I. A. Alekseev, A. S. Tchijov, V. V. Uborsky*
- 124 Development and Improvement of Devices for Hydrogen Generation and Oxidation in Water Detritiation Facility Based on CECE Technology / *M. Rozenkevich et al.*
- 128 New Contact Device for Separation of Hydrogen Isotopes in the Water-Hydrogen System / *I. L. Rastunova, M. B. Rozenkevich*
- 132 Hydrogen Isotope Separation by Combined Electrolysis Catalytic Exchange Under Reduced Pressure / *T. Sugiyama et al.*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 136 Tritium Separation by Electrolysis Using Solid Polymer Electrolyte / *Y. Ogata, Y. Sakuma, N. Ohtani, M. Kotaka*
- 140 Tritium Isotope Separation Using Adsorption-Distillation Column / *Satoshi Fukada*
- 144 A New Kind of Column Materials for Gas Chromatographic Hydrogen Isotope Separation / *M. Hara et al.*
- 148 Multi-Component Adsorption Behavior of Hydrogen Isotopes on Zeolite 5A and 13X at 77.4 K / *Kenji Kotoh, Kazuhiko Kudo*
- 152 A Study on a Tritium Separation Process Using Self-Developing Gas Chromatography with Pd-Pt Alloy / *S. Kojima et al.*
- 156 Hydrogen Isotope Separation Factor Measurement for Single Stage Hydrogen Separators and Parameters for a Large-Scale Separation System / *D. L. Luo, Y. F. Xiong, J. F. Song, G. Q. Huang*
- 159 Thermal Cycling Absorption Process (TCAP): Instrument and Simulation Development Status at Los Alamos National Laboratory / *Angela A. Arias et al.*
- 163 Measurement of Breakthrough Curves on Pressure Swing Adsorption for Hydrogen Isotope Separation / *T. Sugiyama, Y. Asakura, T. Uda, K. Kotoh*
- 167 Kinetic Method for Hydrogen-Deuterium-Tritium Mixture Distillation Simulation / *A. B. Sazonov, Z. G. Kagrmanov, E. P. Magomedbekov*
- 171 Testing of a Prototype SAES St909 Getter Bed for Conditioning Gas to a Tritium Stripper System / *Robert H. Hsu, Jeffrey S. Hölder*

## DECONTAMINATION AND WASTE

- 177 Chronic Release of Tritium from SS316 at Ambient Temperature: Correlation Between Depth Profile and Tritium Liberation / *Yuji Torikai, Ralf-Dieter Penzhorn, Masao Matsuyama, Kuniaki Watanabe*
- 182 A Review of the Different Methods to Quantify Tritium Inside Waste Drums via Helium-3 Mass Spectrometric Measurements / *D. Demange et al.*
- 188 Oxidation of Tritiated Organic Liquid Waste / *Johan Braet, Aimé Bruggeman*
- 194 Dedicated Procedures for the Detritiation of Steel and Graphite / *C. Poletiko, P. Trabuc, J. Durand, B. Tormos, L. Pignoly*
- 200 Comparison and Evaluation of Various Tritium Decontamination Techniques and Processes / *C. A. Gentile, S. W. Langish, C. H. Skinner, L. P. Ciebiera*
- 204 Simplified Estimation of Tritium Inventory in Stainless Steel / *R. Scott Willms*
- 208 Study of Tritium Distribution in Various Metals / *A. N. Perevezentsev et al.*
- 212 Detritiation of the JET Carbon Tiles by Flame Heating / *A. Perevezentsev et al.*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 216 Decontamination, Dismantling and Refurbishing of the PETRA Glove Box at the Tritium Laboratory, Karlsruhe / *C. J. Caldwell-Nichols, M. Glugla, L. Dörr, U. Berndt*
- 220 Optimal Parameter Determination for Tritiated Water Storage in Polyacrylic Networks / *C. Postolache, Lidia Matei, Rodica Georgescu, Gh. Ionita*
- 224 FT-IR Study on Behavior of Surface Hydroxyls Under Irradiation of Energetic Particles / *S. Tanaka, K. Chiba, Y. Oya*
- 228 Conditioning Matrices of Liquid Scintillation Cocktails Contaminated with Tritium / *Magdalena Dianu*
- 230 Sorption Behaviour of Armenian Natural Zeolites / *Y. Keheyan et al.*

## TRITIUM HANDLING FACILITIES

- 237 Operating Experience of the Tritium Laboratory at CRL / *C. L. Gallagher, K. D. McCrimmon*
- 243 The Safety and Tritium Applied Research (STAR) Facility: Status-2004 / *R. A. Anderl et al.*
- 250 Technical and Scientific Aspects of the JET Trace-Tritium Experimental Campaign / *T. T. C. Jones et al.*
- 258 Tritium Systems Test Assembly (TSTA) Stabilization / *Chuck Tesch, Richard Carlson, Roy Michelotti, Mike Rogers, Scott Willms*
- 262 The Closed Tritium Cycle of the Tritium Laboratory Karlsruhe / *L. Dörr et al.*
- 268 Tritium Related Studies Within the JET Fusion Technology Work Programme / *S. Rosanvallon et al.*
- 274 New Safety and Technical Challenges and Operational Experience on the JET First Trace Tritium Experiment / *R. J. H. Pearce et al.*
- 280 Neutral Beam Injection in the JET Trace Tritium Experiment / *E. Surrey et al.*
- 286 Development of a Heavy Water Detritiation Plant for PIK Reactor / *I. A. Alekseev et al.*
- 290 The Prediction of Tritium Level Reduction of Wolsong NPPs by Heavy Water Detritiation with WTRF / *K. M. Song et al.*
- 294 Cryogenic Tritium Target / *A. A. Yukhimchuk et al.*
- 298 New Systems for Waste Processing of Tritium-Containing Gases at the Savannah River Site / *A. S. Poore, W. D. Jacobs*
- 302 Tritium Release Behavior from JT-60U Vacuum Vessel During Air Exposure Phase and Wall Conditioning Phase / *K. Isobe et al.*
- 306 Fuel Retention over a Full Day of Experiments in JET / *T. Loarer et al.*
- 310 High-Pressure Tritium Targets for Research in Muon-Catalyzed Fusion / *V. V. Perevozchikov et al.*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

## TRITIUM MEASUREMENT, MONITORING, AND ACCOUNTANCY

- 317** Tritium Accounting Stability of a ZrCo Bed with "In-Bed" Gas Flowing Calorimetry / *Takumi Hayashi, Takumi Suzuki, Masayuki Yamada, Masataka Nishi*
- 324** In-Situ Measurement of High Level Tritiated Water by Bremsstrahlung Counting / *Masao Matsuyama, Yuji Torikai, Kuniaki Watanabe*
- 332** Storage and Assay of Tritium in STAR / *Glen R. Longhurst, Robert A. Anderl, Robert J. Pawelko, Carl J. Stoots*
- 337** Tritium Accountancy Issues of the ITER Fuel Cycle / *R. Lässer, D. K. Murdoch, M. Glugla*
- 343** ITER Dynamic Tritium Inventory Modeling Code / *Ioana-R. Cristescu, L. Dörr, A. Busigin, D. Murdoch*
- 349** High-Concentration Tritium Sensor / *Stephen N. Paglieri, Scott Richmond, Ronny C. Snow, John S. Morris, Dale G. Tuggle*
- 354** A New Tritium Gas Generator for the Activity Standardization of Tritiated Water by Internal Gas Proportional Counting / *D. Stanga, L. Moreau, J. L. Picolo, P. Cassette*
- 358** High Resolution Vacuum Calorimeter / *L. Dörr et al.*
- 362** Apparatus for the Calibration/Certification of Direct Reading Tritium in Air Monitors / *R. L. Otlet, I. D. Mather, M. Pottinger*
- 366** A Compact Diffusion Sampler for Environmental Applications Requiring HTO or HTO + HT Determinations / *R. L. Otlet, A. J. Walker, I. D. Mather*
- 370** Development of a Novel Contamination Resistant Ion Chamber for Process Tritium Measurement and Use in the JET First Trace Tritium Experiment / *L. B. C. Worth, R. J. H. Pearce, J. Bruce, J. Banks, S. Scales*
- 374** The Investigation of Tritium Contamination of Thermonuclear Material Surfaces Using Nonuniform Magnetic Systems / *V. E. Cherkovets et al.*
- 378** International Benchmark Activity of Tritium Measurement of Blanket Neutronics / *Kentaro Ochiai, Yury Velzilov, Takeo Nishitani, Paola Batistoni, Klaus Seidel*
- 382** Calibration of Tritium Monitors Using Saturated Vapour of Tritiated Water / *E. L. Grigorescu, A. C. Razdolescu, M. Sahagia, P. Cassette, M. Tanase*
- 386** Transfer Phenomena of Tritiated Water from Air to Water / *Masabumi Nishikawa, Hiroki Takata, Toshiharu Takeishi, Kozo Kamimae*
- 390** Portable Intelligent Tritium in Air Monitor / *L. Purghel et al.*
- 393** A Passive Diffusion Sampler for HT- and HTO-in-Air / *R. A. Surette, J. C. Nunes*
- 397** Development of a Low-Level Tritium Air Monitor / *Yoichi Sakuma et al.*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 401 Application of New Technologies for Gaseous Tritium Recovery and Monitoring / *Y. Asakura et al.*
- 405 Isotopic Separation Analysis of Infinitesimal Concentrations of Hydrogen Using Trace Reduction Detector / *Takao Kawano, Naohiro Tsuboi, Hirotsugu Tsujii, Yamato Asakura, Tatsuhiko Uda*
- 409 A New Solid State Tritium Surface Monitor / *R. Scott Willms, David Dogruel, Richard Myers, Richard Farrell*
- 413 Evaluation of Unfixed Tritium Surface Contamination / *C. Postolache, Lidia Matei*
- 416 In-Bed Accountability Development for a Passively Cooled, Electrically Heated Hydride (PACE) Bed / *J. E. Klein*

## CONTAINMENT, SAFETY, AND ENVIRONMENT

- 423 Activities of the EMRAS Tritium/C14 Working Group / *P. A. Davis, M. Balonov, A. Venter*
- 431 Tritium Measurements in Slovenia—Chronology Till 2004 / *Jasmina Kožar Logar, Janja Vaupotič, Ivan Kobal*
- 435 Performance Improvements of a Tritiated Water Recovery System / *L. K. Heung, R. H. Hsu, J. L. Rice, T. S. McGee*
- 441 Analysis of the Consequences of an Acute Atmospheric Release of Tritium / *Philippe Guétat, Luc Patryl*
- 447 Validation of 3-D CFD Model of Tritium Transport in the Atmosphere / *Alexey V. Golubev, Sergey V. Mavrin, Vladimir A. Pavlovsky, Valentin V. Smirnov, Vladimir G. Rogachev*
- 452 Evaluation of Tritium Behavior in the Epoxy Painted Concrete Wall of ITER Hot Cell / *Hirofumi Nakamura, Takumi Hayashi, Kazuhiro Kobayashi, Masataka Nishi*
- 456 Study on Tritium Removal Performance by Gas Separation Membrane with Reflux Flow for Tritium Removal System of Fusion Reactor / *Yasunori Iwai, Toshihiko Yamanishi, Takumi Hayashi, Masataka Nishi*
- 460 Case Study on Unexpected Tritium Release Happened in a Ventilated Room of Fusion Reactor / *Yasunori Iwai, Takumi Hayashi, Kazuhiro Kobayashi, Masataka Nishi*
- 464 Simulation of Tritium Spreading in Controlled Areas After a Tritium Release / *Ioana-R. Cristescu, J. Travis, Y. Iwai, K. Kobayashi, D. Murdoch*
- 468 Verification and Validation of the Tritium Transport Code TMAP7 / *Glen R. Longhurst, James Ambrosek*
- 472 Assessment of the Environmental Impact of Tritium Release from Wolsong Tritium Removal Facility at the Postulated Accident / *Daesik Yook, KunJai Lee, Hongsuk Chung*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 476 The Oxidation Performance Test of Detritiation System Under Existence of CO and CO<sub>2</sub> / *Kazuhiro Kobayashi, Osamu Terada, Hidenori Miura, Takumi Hayashi, Masataka Nishi*
- 480 Development of High Performance Catalyst for Oxidation of Tritiated Hydrogen and Methane Gases / *Tatsuhiko Uda, Takahiko Sugiyama, Yamato Asakura, Kenzo Munakata, Masahiro Tanaka*
- 484 Estimation of Accumulated Dose to Residents due to Tritium Release from Fusion Facilities / *Masahiro Saito*
- 488 Behaviour of Tritium in the Waters of the River Tagus / *A. Baeza, E. Garcia, C. Miró, A. Rodríguez, M. M. Sequeira*
- 492 Tritium Dose Assessments with Regulatory and Advanced Computer Models for the Potential European ITER Site Vandellós (Spain) / *W. Raskob, M. Velarde, J. M. Perlado*
- 496 Monitoring of Airborne Tritium in Vicinity of Radioluminescent Light Manufacturer / *M. Ilin, P. Thompson, H. Rabski*
- 500 Development and Validation of an Atmospheric Dispersion Model for Tritium Using the IAEA Biomass Scenario / *K. Yamamoto, T. Sakashita, K. Miyamoto*
- 504 Observed and Modeled Tritium Concentrations in the Terrestrial Food Chain near a Continuous Atmospheric Source / *P. A. Davis, S. B. Kim, S. L. Chouhan, W. J. G. Workman*
- 508 Unique Features of Pine Tree for Monitoring and Modeling of Environmental Tritium / *Y. Inoue, K. Miyamoto, S. Fuma, H. Takeda*
- 512 Tritium Concentration in Rainwater Samples in Northwestern Greece / *K. Stamoulis, K. Ioannides, P. Kassomenos, A. Vlachogianni*
- 516 A Study to Estimate Tritium Concentrations of 1 Bq/L or Lower in Water Samples / *Takeshi Muranaka, Nagayoshi Shima, Hisayoshi Sato*
- 520 Electrolytic Enrichment of Tritium with Solid Polymer Electrolyte for Application to Environmental Measurements / *Noriyuki Momoshima, Yusaku Nagao, Takahiro Toyoshima*

## MATERIALS INTERACTION AND PERMEATION

- 527 Thermodesorption of Vanadium-Hydride-Based Hydrogen Isotope Sources / *A. N. Golubkov, A. A. Kononenko, A. A. Yukhimchuk*
- 534 Helium-Charged La-Ni-Al Thin Films Deposited by Magnetron Sputtering / *Liqun Shi et al.*
- 539 Helium Nano-Bubble Evolution in Aging Metal Tritides / *Donald F. Cowgill*
- 545 Hydrogen, Deuterium and Tritium in Palladium: An Elastic Constants Study / *H. T. Bach, R. B. Schwarz, D. G. Tuggle*
- 551 Distribution of Hydrogen Isotopes, Carbon and Beryllium on In-Vessel Surfaces in the Various JET Divertors / *J. P. Coad et al.*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 557 Retention of Hydrogen Isotopes in Divertor Tiles Used in JT-60U / *Y. Hirohata et al.*
- 561 Release Behavior of Hydrogen Isotopes from JT-60U Graphite Tiles / *K. Katayama et al.*
- 565 Recovery of Retained Tritium from Graphite Tile of JT-60U / *Toshiharu Takeishi, Kazunari Katayama, Masabumi Nishikawa, Naoyuki Miya, Kei Masaki*
- 569 Fuel Retention in the Gas Box Divertor of JET / *M. Rubel et al.*
- 573 Detailed Tritium Distribution on the JET MK IIA Divertor Tiles / *K. Sugiyama, T. Tanabe, N. Bekris, M. Glugla, J. P. Coad*
- 577 Tritium Retention in the Gap Between the Plasma-Facing Carbon Tiles Used in D-T Discharge Phase in JET and TFTR / *T. Tanabe et al.*
- 581 Hydrogen Retention in a Tungsten Re-Deposition Layer Formed by Hydrogen RF Plasma / *T. Kawasaki, Y. Manabe, K. Katayama, T. Takeishi, M. Nishikawa*
- 585 Hydrogen Isotope Exchange Properties of Porous Solids Containing Hydrogen / *L. K. Heung, G. C. Staack*
- 589 Study of Tritium Behavior in Cement Paste / *H. Takata, T. Motoshima, S. Satake, M. Nishikawa*
- 593 Reemission of Tritium from Tritium-Sorbed Molecular Sieve / *Xiaohua Cao, Guijun Cheng*
- 597 Hydrogen Isotope Behavior in Type 316 Stainless Steel Sorbed by Various Methods / *Y. Oya et al.*
- 601 Observations on  $^3\text{He}$  Release from  $\text{ERT}_2$  Films / *T. Venhaus, J. Poths*
- 605 H-Isotopes Solubility in *Sn-Li* Alloys: A Theoretical Calculation from Thermodynamic Data / *L. A. Sedano*
- 609 Modeling of the Tritium Impact on Mechanical Properties of Structural Materials by Radiogenic Helium and Hydrogen Synergetic Effect Technique / *I. E. Boitsov, S. K. Grischechkin, S. V. Zlatoustovskiy, A. A. Yukhimchuk*
- 613 Calculated and Experimental Study of Metal Saturation with Helium-3 / *I. L. Malkov, A. A. Yukhimchuk, S. V. Zlatoustovskiy*
- 617 Isotope Effect in Hydrogen Transport in BCC-Structured Materials: Polycrystalline Tungsten and Reduced Activation Ferritic-Martensitic Steel / *G. A. Esteban, F. Legarda, A. Perujo*
- 621 New Conceptual Design of a Test Module Assembly for Tritium Permeation Experiment / *S. O'hira et al.*
- 625 Evaluation of Tritium Permeation from Lithium Loop of IFMIF Target System / *Kenjiro Matsuhira, Hirofumi Nakamura, Takumi Hayashi, Hiroo Nakamura, Masayoshi Sugimoto*
- 629 Sensitivity Analysis of Tritium Permeation into the FW-Coolant in ITER / *M. Iseli*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 634** Irradiation Testing of Blanket Materials at the HFR Petten with On Line Tritium Monitoring / *A. J. Magielsen, J. G. van der Laan, J. B. J. Hegeman, M. P. Stijkel, M. A. G. Ooijevaar*
- 638** Correlation Between Annihilation of Radiation Defects and Tritium Release in Neutron-Irradiated LiAlO<sub>2</sub> / *M. Oyaidzu et al.*
- 642** Lithium Ceramic Blankets for Russian Fusion Reactors and Influence of Breeding Operation Mode on Parameters of Reactor Tritium Systems / *Victor K. Kapyshev et al.*
- 646** Release Behavior of Bred Tritium from Irradiated Li<sub>4</sub>SiO<sub>4</sub> / *Tomohiro Kinjyo et al.*
- 650** Methods for Tritium Production Rate Measurement in Design-Oriented Blanket Experiments / *Yury Verzilov, Kentaro Ochiai, Takeo Nishitani*
- 654** Tritium Recovery from Solid Breeder Blanket by Water Vapor Addition to Helium Sweep Gas / *Yoshinori Kawamura et al.*
- 658** Recovery Method of Bred Tritium from Solid Breeders / *Yu-ya Furukubo, Ken-ichi Fukuda, Masabumi Nishikawa, Sergey Beloglazov*
- 662** Semi-Technical Cryogenic Molecular Sieve Bed for the Tritium Extraction System of the Test Blanket Module for ITER / *S. Beloglazov, N. Bekris, M. Glugla, R. Wagner*
- 666** Diffusion Coefficient of Tritium Through Molten Salt Flibe and Rate of Tritium Leak from Fusion Reactor System / *Satoshi Fukada, Robert A. Anderl, Akio Sagara, Masabumi Nishikawa*

## PROPERTIES, REACTIONS, AND APPLICATIONS

- 673** Self-Radiolysis of Tritiated Water: Experimental Study and Simulation / *Sylvér Heinze, Thibaut Stolz, Didier Ducret, Jean-Claude Colson*
- 680** Systematics Studies of the Production Cross Sections of (n, tritium) Reaction Via 14.5 MeV Neutrons / *M. Belgaid, F. Kadem, M. Asghar*
- 684** Radiochemical Reactions Between Tritium Molecule and Carbon Dioxide / *W. M. Shu, S. O'hira, T. Suzuki, M. F. Nishi*
- 688** Behavior of Hydrophobic Isotopic Exchange Catalysts in the Presence of Tritiated Water / *C. Postolache, Lidia Matei, Gh. Ionita*
- 692** Development of Research Technique Related to Tritium  $\beta$ -Radiation Effect on Inflammation Temperature of Hydrogen-Oxygen Mixtures / *N. T. Kazakovsky, I. A. Abramov, A. I. Vedeneev, M. V. Glagolev, A. A. Selezenev*
- 696** Measurement and Control Systems of Tritium Facilities for Scientific Research / *Yu. I. Vinogradov, A. V. Kuryakin, A. A. Yukhimchuk*
- 700** Nuclear Batteries Using Tritium and Thin Film Hydrogenated Amorphous Silicon / *Tome Kostaszi, Nazir P. Kherani, Walter T. Shmayda, Stefan Costea, Stefan Zukotynski*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 704 Gas Feeding System Supplying the U-400M Cyclotron Ion Source with Hydrogen Isotopes / *A. A. Yukhimchuk et al.*
- 708 Observation of Hydrogen Distribution Around Non-Metallic Inclusions in Steels with Tritium Microautoradiography / *Teppei Otsuka et al.*
- 712 Use of Tritium in the Study of Defects in Amorphous Silicon / *Stefan Costea et al.*
- 716 The Use of Tritiated Wastewater from NPP Cernavoda to Estimate Maximum Soluble Pollutants on Danube–Black Sea Channel / *Carmen Varlam et al.*

## TRITIUM IN NEUTRINO PHYSICS

- 723 Measuring Neutrino Properties with Tritium / *Christian Weinheimer*
- 731 Status of Works on A-40-MCI-Activity Tritium Source for the Measurement of the Antineutrino Magnetic Moment / *A. A. Yukhimchuk et al.*
- 737 Windowless Gaseous Tritium Source of Beta Electrons for KATRIN (Overview and Present Status) / *O. Kazachenko*
- 743 Effects of Plasma Phenomena on Neutrino Mass Measurements Process Using a Gaseous Tritium  $\beta$ -Source / *Anatoly F. Nastoyashchii, Nikita A. Titov, Igor N. Morozov, Ference Glück, Ernst W. Otten*

## BIOLOGY, HEALTH, AND RADIATION

- 749 Tritium Determination at Trace Level: Which Strategy to Determine Accurately HTO and OBT in Environmental Samples? / *N. Baglan, G. Alanic, F. Pointurier*
- 755 Subcellular Distribution of Organically Bound Tritium in the Rat Liver After Ingestion of Tritiated Water and Some Tritiated Organic Compounds / *H. Takeda, K. Miyamoto, S. Fuma, N. Ishii, K. Yanagisawa*
- 759 Tritium Elimination System Using Tritium Gas Oxidizing Bacteria / *Michiko Ichimasa et al.*
- 763 Interlaboratory Comparison of Organically Bound Tritium Measurements in Environmental Samples / *W. J. G. Workman, S. B. Kim, T. G. Kotzer*
- 767 Organically Bound Tritium in Plants: Insights Gained by Long-Term Experience in Experimental and Modeling Research / *S. Strack, S. Diabaté, W. Raskob*
- 771 Formation of Organically Bound Deuterium at Each Growing Stage of Rice / *Mariko Atarashi-Andoh, Yasuharu Kumakura, Hikaru Amano, Masami Fukui*
- 775 Uptake of Heavy Water and Loss by Tangerine in the Heavy Water Vapor Release Experiment in a Greenhouse as a Substitute for Tritiated Water / *Y. Ichimasa et al.*
- 779 The Dynamics of Tritium—including OBT—in the Aquatic Food Chain / *D. Galeriu, R. Heling, A. Melintescu*

(Continued)

# CONTENTS / JULY/AUGUST 2005— VOL. 48, NO. 1

(Continued)

- 783** Tritium Enrichment in the Hydration Sphere of Humic Substances /  
*Birgit Wierczinski, Günther Müllen, Andreas Türler*
- 787** Accumulative Tritium Transfer from Water into Biosystems / *Franz Baumgärtner*
- 791** Modeling the Radiological Impact of Tritium in Sewage Sludge Being Used as  
Fertilizer / *A. Venter, G. Smith*
- 795** Energy Metabolism and Human Dosimetry of Tritium / *D. Galeriu, H. Takeda,  
A. Melintescu, A. Trivedi*
- 799** Author Index
- 803** Subject Index
