---

**Other news**

Send updates on these topics

to **nucnews@ans.org**

for consideration by

*Nuclear News* staff.

**Industry:** nuclear business developments, contracts, mergers, new facilities, etc.

**People:** hires, promotions, awards, obituaries, etc.

**Recently Published:** forthcoming and just-published books

---

### Additional information

**Calendar:** Nuclear-related conferences are published in the Calendar for up to seven months before the event; Short Courses are listed only once, from one to four months in advance of the course date; Calls for Papers are listed only once, when received. Send information to **csalvato@ans.org**.

**Sponsored Content:** *Nuclear News* does not publish promotional copy in news or feature content. For information about Sponsored Content or to place print ads promoting your meetings or products or services, visit [ans.org/advertising](http://ans.org/advertising), email **advertising@ans.org**, or call 708/579-8226.

---

### Photo and graphics specifications

**Photos, figures, and graphics**—whether for features, news items, or sponsored content—should be at least 300 dpi at the published size (e.g., if a photo will be three inches wide when published, it should be at least 900 pixels wide).

We can accept many file formats, but JPEG, EPS, or PDF are preferred.

Graphics that are created in vector programs like Adobe Illustrator can be sent as EPS or SVG.

Captions and credits must be supplied for all photos and graphics.

## HOW TO SUBMIT FEATURE ARTICLES

Articles and photo features of general interest to nuclear professionals—on industry trends, significant concepts, new or upgraded technology, lessons learned, or operating experience—will be considered for publication in *Nuclear News*. Feature articles vary in length; most are 1,500–3,000 words.

If you have an article to submit, see Steps 1–3 below. If you want to pitch an article that hasn't been written, save time by first sending a detailed email to [sgallier@ans.org](mailto:sgallier@ans.org) describing the article's topic, scope, and perspective, and we will reply with comments about the suitability of your article. (*Nuclear News* will not publish promotional copy as a feature article. For more information on paid Sponsored Content, visit [ans.org/advertising](http://ans.org/advertising), email [advertising@ans.org](mailto:advertising@ans.org), or call 708/579-8226.)

**STEP 1:** Review the information below about accuracy, style, and other important details.

**STEP 2:** Email your final draft, including captions for photos and graphics, to [sgallier@ans.org](mailto:sgallier@ans.org) as a Word document. Do not send a preliminary draft. Email photos, graphics, and other images as separate files (see specifications below).

**STEP 3:** We will review the article. If it's a good fit for *Nuclear News*, we'll edit it for content, structure, and style, and then email the revised article to the author for review, along with any questions and requests for clarification. The article will be finalized in communication with the author.

### Accuracy

You are responsible for accuracy, including names, titles, terms, dates, historical details, and technical information. Double-check everything. We look for errors but cannot always spot them.

### Style

A magazine article is not like a journal monograph or a report. We value readability—writing that is clear, direct, and interesting. Do not use promotional language.

Present your facts and ideas in a logical order to make it easy for the reader to follow. Your most important points should be mentioned near the beginning.

Where possible, give specific examples and include direct quotations.

### Important details

The final article must comply with our editorial needs, standards, and schedule.

The author (or lead author) will be asked to sign a Publication Agreement that grants *Nuclear News* the rights to publish the article in print and other media, and that also grants the author(s) certain usage rights.

Papers presented at non-ANS meetings must have permission from the primary meeting organization for use in *Nuclear News*.

### Photo and graphics specifications

**Photos, figures, and graphics**—whether for features, news items, or sponsored content—should be at least 300 dpi at the published size (e.g., if a photo will be three inches wide when published, it should be at least 900 pixels wide).

We can accept many file formats, but JPEG, EPS, or PDF are preferred.

Graphics that are created in vector programs like Adobe Illustrator can be sent as EPS or SVG.

Captions and credits must be supplied for all photos and graphics.
