1. Welcome and Roll Call

SB Chair Andrew Sowder called the meeting to order. Roll call was taken, and a quorum was established. Sowder thanked everyone for attending the meeting.

2. Approval of Agenda

The agenda was approved as presented.

3. SB Chair Remarks

A. Pre-Meeting Purpose

The Standards Board will hold a full-day meeting on Tuesday, June 17, during the 2025 ANS Annual Conference in Chicago. The practice of a pre-meeting is to lighten the agenda for the June meeting to adjourn on time. The meeting date and time of the pre-meeting is not pre-set like the meeting during the ANS conference. The meeting date/time for the pre-meeting is determined by the greatest available as shown on a poll.

B. NRC Items

- Report out from March 2025 ANS/U.S. Nuclear Regulatory Commission (NRC) Meeting
The last meeting with NRC was held March 11, 2025, during the NRC Regulatory Information Conference. The meeting was conducted in person with a virtual option. The next ANS/NRC meeting is scheduled in June just after the ANS Annual Conference. Discussions with NRC at the March meeting included updates on ANS standards and a focus on NRC endorsement options.
- New ANS policy in development on different pathways for NRC approval:
 - Required by
 - Endorsed by
 - Approved by
 - Reviewed by
 - Found to be acceptable by
 - Found to be appropriate by

Andrew Sowder will be drafting a new ANS policy for seeking NRC endorsement and/or approval. Leah Parks reported that NRC has been discussing different options for NRC endorsement and/or approval. A public meeting to discuss endorsement options is anticipated to be scheduled later this year. Management Directive 6.5 “NRC Participation in the Development and Use of Consensus Standards,” is being updated. Budgeting of staff resources was not discussed at the ANS/NRC meeting. Parks added that NRC supports staff participation in standards and is looking at how to be more efficient. Looking at different ways to endorse a standard is one way for NRC to gain efficiency. The last letter to NRC requesting endorsement of new ANS standards included three standards. One was submitted for NRC’s awareness since there was no known endorsement vehicle; the other two were submitted with a request for consideration of endorsement.

Douglas Bowen is the chair of an analogous committee to the ANS-8 Subcommittee under the International Organization of Standardization (ISO). He expressed concern that NRC has started to favor endorsement of ISO standards and is leading some ISO standards work. Sowder confirmed that this subject was discussed at the ANS/NRC meeting as part of the discussion on endorsement. NRC’s Standards Executive Christian Araguas is looking into this. Leah Parks would like to get additional details from Bowen to share with Araguas.

ACTION ITEM 5/2025-01: Leah Parks to follow up with Doug Bowen on ANS standards being looked over in lieu of ISO standards analogous to ANS-8 standards.
DUE DATE: June 15, 2025

The [embedded](#) response to NRC's request for ANS high-priority standards was submitted to NRC and distributed to the Standard Board on March 31, 2025. Priorities were determined using feedback from Advanced Reactor Codes and Standards Collaborative (ARCSC) surveys.

- Comments Submitted on Part 53

The [embedded](#) comments on behalf of the Standards Board on Part 53 were submitted to NRC through the Federal Register and to the Standards Board on February 28, 2025.

C. List of Staffing Needs for the Roadmap Implementation Board (RIB) via ARCSC

owerNeeds_to_RIB-I

The [embedded](#) list of staffing needs was submitted to the RIB via ARCSC on May 9, 2025, and provided to the Standards Board. Donald Eggett added that RIB members are primarily utility owners who offered their help in recruiting volunteers for advanced reactor working groups. Eggett will be attending a RIB meeting next month to represent the ARCSC. He will report on the RIB meeting at the June 17 Standards Board meeting.

D. Overview of 2024 CC Evaluation Report

(Distributed to full SB 3/1/25)

2024[2023]Combine
d CC Evaluation Sun

Members reviewed the [embedded](#) 2024 Consensus Committee Evaluation Report. Sowder noted that the SB leadership reviews consensus committee membership routinely at monthly meetings. Eggett mentioned that the evaluations have been prepared for about 10 years. He feels the metrics are very important. Consensus committee chairs were thanked for keeping up with the metrics. Sowder acknowledged the following:

- The evaluation summary shows a good report overall.
- Only a couple of areas are in need of some work.
- Progress is realized in solicitation of new consensus committee members since the 2024 report.
- A new metric was added to track completion of Project Implementation Plan (PIPs).

E. Standards Board Succession Plan

- Leadership
 - Sowder's term ends June 2026.
 - Todd Anselmi will succeed Sowder as the next Standards Board Chair.
- Members

- Robert Becse and Robert Kalantari were reapproved for a 2nd/final term 2025-2028.
- There will be 5 openings for the 2026-2029 term (4 eligible for reappointment).
- Parks will be transitioning over to the private sector and will be replaced as the NRC representative. The new NRC representative will likely be Raj Iyengar.

4. SB Vice Chair Remarks

A. ANS Standards Development Opportunities for Improvement

ANS Standards
Development Oppor

Todd Anselmi summarized the [embedded](#) paper by James O'Brien titled "ANS Standards Development Opportunities." The paper was discussed by the Policy Task Group (PTG) at their last meeting. The following actions were identified by the PTG:

- A metric for completion of PIPs should be added to the annual consensus committee evaluations (NOTE: The metric was added to the 2024 reports.)
- Better utilization of PIPs (e.g., subcommittee chairs to follow up on schedules) will be considered by a small group including Anselmi, O'Brien, and Don Eggett. Members were invited to help if interested and available.
- The ANS Style Manual will be updated by Andrew Sowder and Pat Schroeder to include examples of how to write standards.

B. Other Remarks

Andrew Sowder added that leadership is keenly aware of the heavy load on members and trying to balance tasks on everyone's plate. By better utilization of the PIP, they are trying to use an existing tool.

5. Review of SMART Matrix

SMART_MATRIX_Up
date_for 5-29-25_SB

The [embedded](#) SMART Matrix was reviewed by Todd Anselmi. Agreement had previously been made on the four goals. Any actions in the previous Standards Committee Strategic Plan were moved to the SMART Matrix. Activities under ARCSC are captured in the SMART Matrix. Additional actions may be added as a result of the small group looking at James O'Brien's paper on Standards Development Opportunities for Improvement.

Robert Budnitz questions whether SMART Matrix Action 2Ad, to develop criteria to better define when sufficient knowledge is considered available to start work on a new standard, is feasible. He feels that the decision to initiate development on a new standard needs to be considered on a case-by-case basis. Anselmi noted that this is one action that has been stagnant for several years. He left this action on the SMART Matrix for the Standards Board to provide their feedback. On the other hand, Budnitz feels that SMART Matrix Action 2Ae, to define the requirements that should be implemented on consensus committees to ensure that there is sufficient review for new and significantly revised standards, is a worthwhile action. It was noted that the SMART Matrix has some legacy actions that need to be streamlined. An action item was assigned at the Standard Board's January 2025 meeting for Risk-informed, Performance-based Principles and Policy Committee (RP3C) leadership to reassess RP3C actions on the SMART Matrix. Members are asked to review the SMART Matrix and provide comments and suggestions.

ACTION ITEM 5/2025-02: Members to provide comments and suggestions on the SMART Matrix to Todd Anselmi (with Pat Schroeder and Kathy Murdoch on copy.) NOTE: Todd Anselmi to provide instructions for commenting to Schroeder for distribution with the SMART Matrix.)
DUE DATE: June 30, 2025

6. Review of Standards Board June 17, 2025, Agenda

The draft Standards Board agenda for the June 17, 2025, meeting was reviewed. The meeting start time was moved to 10:00am due to a conflict. Members on the east coast prefer this start time and asked that the November 2025 Standards Board meeting in Washington D.C. be scheduled to start at 10:00 am eastern.

The following actions were assigned when reviewing the agenda for the June 17, 2025, Standards Board meeting:

ACTION ITEM 5/2025-03: Pat Schroeder to invite those in the ANS mentor program to stop by the Standards Breakfast Roundtable being planned for the 2025 ANS Winter Meeting.
DUE DATE: September 1, 2025

ACTION ITEM 5/2025-04: Pat Schroeder to schedule the Standards Board meeting in November 2025 to start at 10:00am eastern.
DUE DATE: August 1, 2025

7. Other/New Business

Donald Eggett mentioned the ANS Professional Development and Work Skills Committee that he is engaged with. The committee is intended to generate topics of interest to the industry. An example is the Nuclear 101 course launched last year. Other courses now have been and will be developed. There are courses in development on nuclear economics; and risk-informed, performance-based methods; and possibly one on probabilistic risk assessment. Eggett was asked to provide members a brief summary of the group's work.

ACTION ITEM 5/2025-05: Donald Eggett to provide Pat Schroeder a high-level report on the ANS Professional Development Work Skills Committee activities to distribute to the Standards Board.
DUE DATE: June 15, 2025

8. Review of Action Items from This Meeting

The action items assigned during the meeting were reviewed.

9. Adjournment

The meeting was adjourned.
