Nuclear News

*Nuclear News* has been refreshed to illuminate today’s nuclear community. All-new sections include Leaders, Nuclear Trending, Nuclear Notables, Spotlight, A Critical Look, Atoms, and *NN* Asks.

In addition, *Nuclear News* continues to present news on plant operations, maintenance and security, policy and legislation, international developments, waste management and fuel, and business and contract awards. Also covered are research and nonpower applications of nuclear science and technology, including nuclear medicine, food irradiation, and space nuclear applications. The popular *ANS News*, which contains information for and about ANS members, has been incorporated into the monthly magazine.

Radwaste Solutions

Radwaste Solutions is a specialty magazine providing expanded coverage of worldwide decommissioning, environmental remediation, and waste management activities. Feature articles discuss the generation, handling, treatment, cleanup, transportation, storage, and disposal of radioactive waste. Articles are contributed by people working with utilities and those involved in U.S. DOE site work, in the medical, legal, university, consulting, and commercial areas, and from all levels of government.

Sponsored Content

By request, the popular Sponsored Content outlet that Nuclear News magazine introduced last year is now available in Radwaste Solutions as well. Similar to NN, RS will publish your radwaste-related messaging in our Spring or Fall issue, post/archive on the Newswire web page, and promote the content within a monthly membership email. SC is not subject to peer review or the RS feature article criteria.

Inside the numbers…

2,600+ readers in the Operations and Power segments of the nuclear field

3,400+ readers in the specialized Decommissioning, Environmental Remediation, and Waste Management areas

1,500+ readers from National Labs and Government agencies

42% of our readers active within the nuclear workforce hold managerial level titles or higher—our magazines are read by the decision-makers you need to reach.

An additional 1,600 student members (more than half in graduate-level programs) represent your future customers and employees.

TIMELY CONTENT + TARGET AUDIENCE = your ad dollars working for you!

Since ANS accepted its first advertisement in 1960, we have proudly partnered with more than 1,600 worldwide companies and organizations to help deliver marketing messages to the nuclear community—more than 40,000 ad pages sold and counting!

Print & Digital: Every issue is delivered to nearly 11,000 readers residing throughout 54 countries, including attendees at key industry events.

Online: Gain exposure to the more than 240,000 unique individuals that visit our website every year.

If you aren’t doing so already, advertise, subscribe, and join today to further strengthen the unified voice of ANS and enhance the magazines that deliver the innovation, technology, and articles the industry has come to rely on for more than 60 years.

ANS—a membership that matters!

If you are not an individual or organizational member already, please consider joining the American Nuclear Society’s growing global network of supporters. ANS is the premier society for professionals who want to advance their careers, exchange knowledge, advocate for their field, and help shape the future of nuclear science and technology.

Subscriptions to Nuclear News and Radwaste Solutions magazines are two of the many membership benefits. Be a part of the future and join the ANS community today at ans.org/join.
Preferred file formats

- Print-ready PDF format
- Adobe Creative Suite 5 or later
- EPS vector format (all fonts and photos must be embedded)
- TIFF Bitmap format (300 dpi at full size)
- JPEG Bitmap format (300 dpi at full size, high quality compression)

Acceptable file formats (these formats may result in alterations to the ad due to the conversion process):

- Word processing documents (Word, WordPerfect, etc.)
- Presentation documents (PowerPoint, etc.)

For all other file formats, results can be unpredictable. Please check with us before sending any other file formats.

All ad material should be at least 300 dpi at the desired print size.

Do not include crop marks, registration marks, color bars, or other “non-live” material in your ad. Including these can interfere with the proper printing of your materials.

All supporting documents (Fonts, Pictures, Plugins, Xtentions) required for use with the files must be included. A laser copy of the ad should be included, with any spot colors clearly labeled. Alternatively, color separations or an Acrobat PDF proof may be sent. PDF proofs must be clearly marked as proofs only and not for production. Files sent electronically (via email or Web) MUST be compressed to decrease file size and protect data.

To ensure accurate color reproduction, please check that 4-color ad files are built using only CMYK colors; 4-color ads that include spot colors or RGB images will be converted to CMYK before printing, which could affect the appearance of the ad in the printed magazine.

ANS Career Center
ans.org/career

The ANS Career Center is the premier online forum for employers to recruit qualified nuclear candidates (via electronic job postings). As a value-added service, when you purchase an employment ad in Nuclear News, the text from your print ad is automatically posted to the job board for two months. Alternatively, create and manage an Employer Services account online and post your open position today. Each credit purchased is valid for a single job description (31 day posting) or can be applied to an existing job description to extend the posting for an additional 31 days. Buy in bulk and save - credits never expire!
Radwaste Solutions Buyers Guide (published within the Fall issue of Radwaste Solutions) lists nearly 350 worldwide companies that supply 165 products or services that are utilized by the specialized radioactive waste management and site cleanup and remediation segments of the nuclear field.

The Directory of Suppliers section provides contact information (by company/country) and indicates the products and services each industry vendor supplies or provides. The Product Listings section lists the 165 categories of products and services utilized by DOE cleanup and remediation sites and civilian decommissioning projects, as well as radioactive waste management projects in both the utility and nonpower/nongovernmental segments of the industry in the United States and internationally. Companies that are active within this segment of the nuclear industry are listed under each product listing that is representative of their business or area of expertise.

COMPANY LISTINGS ARE FREE!
It only takes a few minutes to create a free listing for your company in the Radwaste Solutions Buyers Guide.

Go to ans.org/advertising/newrsbg

If your company already has a free listing, the contact(s) we have on file will receive an email from us in July each year to verify or update the listing. To ensure that we are publishing accurate information, this must be completed each year in order to be included in the directory.
See why nearly 11,000 readers worldwide rely on Nuclear News to help stay informed. Published since 1959, Nuclear News is recognized as the flagship trade publication serving the nuclear community.

The corporate subscription rate for 2021 is $670 (plus $80 postage for subscriptions mailed outside of North America), which includes 13 print issues (12 monthly issues plus the Buyers Guide) as well as online access for an unlimited IP range of desktop users at your location.
