2022 ANS Nontraditional Student Scholarship

ANS[®] SCHOLARSHIP PROGRAM

The American Nuclear Society is committed to helping students in nuclear science and technology fields build a better future through education. Every year, the ANS Scholarship Program awards over \$250,000 to help students realize their dreams.

Scholarships are awarded for both undergraduate and graduate study and may be used for education-related expenses, including tuition, fees, books, supplies, room, and board.

Who is eligible?

Scholarships are open to undergraduate and graduate students enrolled in a course of study relating to a degree in nuclear science, nuclear engineering, or a nuclear related field.

U.S. and non-U.S. residents may apply if they are enrolled or planning to enroll in an accredited institution in the United States (or its territories). ANS members from established international student sections may also apply.

Incoming freshmen scholarships are open to graduating high-school seniors who have enrolled, full-time, in college courses and are pursuing a degree in nuclear engineering or have the intent to pursue a degree in nuclear engineering.

Selection Process

The recipients will be selected by an impartial scholarship review committee. Winners will be notified by May. Scholarships are non-renewable and must be applied for each year.

Non members may apply, but must know that ANS involvement is heavily weighted and preference is given to active student members. All recipients are required to be ANS members prior to award distribution
