Nuclear and Emerging Technologies Meeting (NETS-2022) May 8-12, 2022 | Cleveland, OH
NETS is the premier annual gathering of individuals from NASA, national laboratories, industry, and academia for discussions on space nuclear power and propulsion with an additional focus on new and emerging technologies to further space exploration capabilities.

International Conference on Physics of Reactors 2022 (PHYSOR) May 15-20, 2022 | Pittsburgh, PA
PHYSOR attracts international experts from all segments of the nuclear industry and scientific community, including vendors, utilities, laboratories, and universities. The theme for this year’s conference is Making Virtual a Reality: Advancements in Reactor Physics to Leap Forward Reactor Operation and Deployment.

2022 ANS Annual Meeting JUN 12-16, 2022 | Anaheim, CA
Be a part of one of the largest gatherings of nuclear professionals in the country where the brightest minds engage – and inspire – leaders from across the nuclear science and technology landscape. In addition to an impressive list of government and industry leaders, we are also planning several outstanding hot-topic technical sessions and popular plenary speakers which will attract professionals from across the nation and internationally.
Embedded Topical Meetings: Advances in Thermal Hydraulics (ATH 2022)
Nuclear Criticality Safety Division Topical Meeting (NCSD 2022)
Technology of Fusion Energy (TOFE)

Utility Working Conference and Vendor Technology Expo AUG 7-10, 2022 | Marco Island, FL
The Utility Working Conference and Technology Expo (UWC) is an annual meeting of the minds that consistently generates strong, practical recommendations designed to address the industry’s most pressing needs.

14th International Conference on Radiation Shielding and 21st Topical Meeting of the Radiation Protection and Shielding Division (ICRS 14/RPSD 2022) SEP 25-29, 2022 | Seattle, WA
Exposing the RPSD and ICRS communities to new tools that make them more effective, showing them the value of membership. Tool developers, code users, theoreticians, and experimentalists will engage in productive discussions, establish collaborations, and build community in the forefront of scientific advancements and challenges in radiation protection and shielding.

TopFuel is the preeminent international meeting on new developments in LWR fuel performance held every year, alternating between Asia, Europe and the U.S.

2022 ANS Winter Meeting and Nuclear Technology Expo NOV 13-17, 2022 | Phoenix, AZ
The ANS Winter Meeting promises to be one of the year’s most exciting and informative educational and networking events for attendees from every facet of nuclear science and technology. In addition, the Technology Expo will give attendees a glimpse into the applications of new technology through three days of exhibits and special events. The Expo also will give attendees many opportunities to network with each other and establish new professional relationships while having food and fun in a friendly and informal setting.
Embedded Topical Meeting: International High-Level Radioactive Waste Management
