

## AGREEMENT ON COPYRIGHT

Certain rights under copyright to the paper (ID# \_\_\_\_\_ ) submitted with the title \_\_\_\_\_

by \_\_\_\_\_ (the "Assignor")  
are assigned to the American Nuclear Society (ANS), effective when the paper ("work") is accepted for presentation or publication by ANS, and secured by ANS registration of publication collective works of which this paper will be a part.

The Assignor (author or authors) warrants that they have full right to make this Agreement, that their work does not violate the rights of other persons nor infringe upon any existing copyrighted work. If copyrighted material of a third party is included, the Assignor agrees that they will obtain required permission for its reuse.

The Assignor retains the right to reproduce this paper for their own use; for such use, the meetings proceedings must be credited as the original publication. The Assignor keeps the right to prepare derivative works for future publications that occur, at a minimum, six months after the meetings proceedings is published.

The Assignor also retains the right to grant to third parties permission to republish all or part of the work, provided written permission also is given by ANS. Proprietary rights other than copyrights, such as patent rights, also are retained by the Assignor.

If the Assignor is acting for other authors, their rights are retained or transferred in the same manner under this Agreement.

If the author(s) created this work while employed by the U.S. Government or one of its contractors, and within the scope of such employment, the U.S. Government is granted a nonexclusive royalty-free license to publish, republish, or reproduce the work or to allow others to reproduce this work for U.S. Government purposes.
