

Nuclear Technology

VOLUME 199 · NUMBER 1 · JULY 2017

Contents

TECHNICAL PAPERS

- 1** Impact of Active Control on Passive Safety Response Characteristics of Sodium-Cooled Fast Reactors: I—Theoretical Background
Stefano Passerini, Roberto Ponciroli, Richard B. Vilim
- 16** Impact of Active Control on Passive Safety Response Characteristics of Sodium-Cooled Fast Reactors: II—Model Implementation and Simulations
Roberto Ponciroli, Stefano Passerini, Richard B. Vilim
- 35** Robust Control of Once-Through Canadian Supercritical Water-Cooled Reactors
Peiwei Sun, Ji Feng, Xianbao Yuan, Liang Zhao, Furong Liu
- 47** Discrete Element Method-Based Investigations of Granular Flow in a Pebble Bed Reactor
Vaibhav Khane, Mahmoud M. Taha, Gary E. Mueller, Muthanna H. Al-Dahhan
- 67** Neutronics and Safety Studies on a Research Reactor Concept for an Advanced Neutron Source
Zeyun Wu, Robert E. Williams, J. Michael Rowe, Thomas H. Newton, Sean O’Kelly
- 83** Oxide-Metal Ratio Dependence of Central Void Formation of Mixed Oxide Fuel Irradiated in Fast Reactors
Yoshihisa Ikusawa, Koji Maeda, Masato Kato, Masayoshi Uno
- 96** Study of the Interaction Between U_3Si_2/Al in Dispersion Plates at the End of the Fabrication Process
M. Mirandou, S. Aricó, R. Sanabria, S. Balart, D. Podestá, J. Fabro

TECHNICAL NOTE

- 103** Thermal Conductivity of G-348 Isostatic Graphite
W. David Swank, Francisco I. Valentin, Masahiro Kawaji, Donald M. McEligot
