

# Nuclear Technology

VOLUME 207 · NUMBER 5 · MAY 2021

## Contents

### TECHNICAL PAPERS

- 637** Thermal-Hydraulic and Engineering Evaluations of New LOCA Testing Methods in TREAT  
*Nicolas Woolstenhulme, Colby Jensen, Charles Folsom, Robert Armstrong, Junsoo Yoo, Daniel Wachs*
- 653** TRACE Analysis of a Loss of Alternating-Current Power Without Rod Insertion for the NuScale Power Module—I: Basic Event Progression and Long-Term Behavior  
*Peter Yarsky*
- 665** TRACE Analysis of a Loss of Alternating-Current Power Without Rod Insertion for the NuScale Power Module—II: Sensitivity to Varying Initial Temperature  
*Peter Yarsky*
- 680** Integral Effect Test and MARS-KS Calculation with Uncertainty Propagation Analysis for Direct Vessel Injection Line Break Intermediate-Break Loss-of-Coolant Accident  
*Byoung-Uhn Bae, Jae-Bong Lee, Yu-Sun Park, Jong-Rok Kim, Seok Cho, Kyoung-Ho Kang*
- 692** Enhancing the One-Dimensional SFR Thermal Stratification Model via Advanced Inverse Uncertainty Quantification Methods  
*Cihang Lu, Zeyun Wu, Xu Wu*
- 711** A Radiation-Tolerant Wireless Communication System for Severe Accident Monitoring Without Relying on Rad-Hardened Electronic Components  
*Qiang Huang, Jin Jiang*
- 726** Sampling and Analysis of PWR Primary Cooling System Corrosion Products Using an EPMA  
*Yang Hong Jung, Bong Ok Yoo*
- 735** Application of Flaw Updating Process on Probabilistic Integrity Analysis for a Reactor Pressure Vessel Subjected to Pressurized Thermal Shocks  
*Hsoug-Wei Chou, Pin-Chiun Huang, Yuh-Ming Ferng*
- 750** A Versatile Remediation Module for Remote Repair of Spent Nuclear Fuel and High-Level Waste Storage Containers  
*Stylianos Chatzidakis, Dominic Giuliano, Jeremy Slade, Wei Tang, Roger Miller, Steve Reeves, John Scaglione, Robert Howard*

—continued—

## Contents continued

VOLUME 207 · NUMBER 5 · MAY 2021

- 761** Simulation of the Fast Reactor Fuel Assembly Duct-Bowing Reactivity Effect Using Monte Carlo Neutron Transport and Finite Element Analysis  
*Edward Lum, Chad L. Pope*

### CORRECTION

- 771** A Stylized 3-D Benchmark Problem Set Based on the Pin-Fueled SmAHTR  
*K. Lisa Reed, Farzad Rahnema, Dingkang Zhang, Dan Ilas*
