

Special Issue Featuring Selected Papers from the 28th International Conference on Transport Theory (ICTT28)

Contents

- iii Foreword
Ryan McClarren, Barry Ganapol

RESEARCH ARTICLES

- 753** Benchmark-Quality Results for Transport Problems Involving a Void Region in Spherical Geometry
R. D. M. Garcia
- 766** Double PN Benchmark for the One-Dimensional Plane Geometry Monoenergetic Neutron Transport Equation with Anisotropic Scatter
B. D. Ganapol, D. Mostacci
- 781** Analytic Solutions for Strong Blast Wave Radiographs
William Bennett, Ryan G. McClarren, Jim Ferguson
- 800** Tensor Train Neutron Transport Applied to Nuclear Reactor Problems
Mario I. Ortega, Duc P. Truong, Ismael Boureima, Kim Ø. Rasmussen, Boian S. Alexandrov
- 821** An Analytical Discrete Ordinates Solution for the Two-Dimensional Transport Equation with Exact Representation of the Scattering Law
Liliane Basso Barichello, Rudnei Dias da Cunha, Maiara Mentges
- 847** Neutron Counting Statistics Calculations Using Deterministic Transport
Philippe Humbert
- 865** High-Order Stochastic Perturbation Method for Updating Response Functions for Changes in Material Density and Isotopic Atom Density
Farzad Rahnema, Ding Kang Zhang

REGULAR REVIEW ARTICLES

- 877** Second Phases in Zr Alloys: A Review
Muhammad Ali, Fuzhou Han

—continued—

Contents continued

VOLUME 200 · NUMBER 4 · APRIL 2026

- 904** A Review on Plastic Scintillator Development and Performance for Gamma-Ray Detection
Rizka Fitriana, Yeni Febrianti, Rahmawati Rahmawati, Adhi Harmoko Saputro

REGULAR RESEARCH ARTICLES

- 932** Reliability Assessment of Passive Nuclear Systems Influenced by Corrosion in Stratified Hot Fluids
Akmali Masood, Robert Plana
- 943** Analysis of Zero-Variance Schemes for Radiation Shielding Problems Including Neutron Multiplication
Thayz Gomes Ferreira, Alexis Jinaphanh, Davide Mancusi, Andrea Zoia
- 976** Demonstration of TOFFEE: A Response Uncertainty Quantification Tool
Austin Williams, Lance Drouet, Sandra Bogetic
- 991** Scoping Analysis of Pebble-Bed Reactors for the Destruction of the Transuranic Inventory of LWR Spent Nuclear Fuel
Annie Berens, Friederike Bostelmann, Nicholas R. Brown
- 1012** SAINT: A Computational Framework for Time-Dependent Neutron Transport
Peter Schwanke, Eleodor Nichita
