

Fusion Science and Technology

CONTENTS / JULY 2003—VOL. 44, NO. 1

**Proceedings of the
Fifteenth Topical Meeting on
THE TECHNOLOGY OF FUSION ENERGY
(Part 1)**

**Washington, D.C.
November 17–21, 2002**

v Comments / *Nermin A. Uckan*

vii Preface: Fifteenth Topical Meeting on the Technology of Fusion Energy

FUSION PLENARY AND OVERVIEW

3 Status and Prospect of the ITER Project / *Yasuo Shimomura, ITER International Team, Participant Teams*

11 The National Ignition Facility: Status and Plans for the Experimental Program / *Edward I. Moses*

19 Current Status and Future Technical Challenges for Tokamak Magnets / *N. Martovetsky, J. Minervini, K. Okuno, E. Salpiero, O. Filatov*

27 IFE Chamber Technology—Status and Future Challenges / *W. R. Meier, A. R. Raffray, S. I. Abdel-Khalik, G. L. Kulcinski, J. F. Latowski, F. Najmabadi, C. L. Olson, P. F. Peterson, A. Ying, M. Yoda*

34 Status of Safety and Environmental Activities for Inertial Fusion Energy / *J. F. Latkowski, S. Reyes, L. C. Cadwallader, J. P. Sharpe, T. D. Marshall, B. J. Merrill, R. L. Moore, D. A. Petti, R. Falquina, A. Rodriguez, J. Sanz, O. Cabellos*

41 Present Research Status on Divertor and Plasma Facing Components for Fusion Power Plants / *S. Suzuki, Y. Ueda, K. Tokunaga, K. Sato, M. Akiba*

49 New Directions in Fusion Plasma Diagnostic Development / *D. W. Johnson*

MFE CHAMBER TECHNOLOGY

59 Spiral Blanket: An Innovative Idea for a Solid Wall Blanket with Potential for High Neutron Wall Loading / *I. N. Sviatoslavsky, M. E. Sawan, S. Majumdar*

64 Transmutation and Production Rates of Elements in Flibe and Flinabe with Impact on Chemistry Control / *Mohamed E. Sawan, Dai-Kai Sze*

(Continued)

CONTENTS / JULY 2003—VOL. 44, NO. 1

(Continued)

- 69 A Helical Coolant Channel Design for the Solid Wall Blanket / *E. A. Mogahed*
- 74 The MTOR LM-MHD Flow Facility, and Preliminary Experimental Investigation of Thin Layer, Liquid Metal Flow in a 1/R Toroidal Magnetic Field / *Neil B. Morley, Jonathan Burris*
- 79 Experimental Investigation and Analysis of the Effective Thermal Properties of Beryllium Packed Beds / *A. Abou-Sena, A. Ying, M. Abdou*
- 85 Experimental and Computational Simulation of Free Jet Characteristics Under Transverse Field Gradients / *X. Luo, A. Ying, M. Abdou*
- 94 Effective Thermal Conductivity of a Li_2TiO_3 Pebble Bed for a DEMO Blanket / *T. Hatano, M. Enoda, S. Suzuki, Y. Kosaku, M. Akiba*

IFE CHAMBER TECHNOLOGY

- 101 Practical Considerations for Thermal Stresses Induced by Surface Heating / *James P. Blanchard*
- 106 Thin Liquid Wall Behavior Under IFE Cyclic Operation / *A. R. Raffray, S. I. Abdel-Khalik, D. Haynes, F. Najmabadi, J. P. Sharpe, ARIES Team*
- 111 Thermal Behavior and Operating Requirements of IFE Direct-Drive Target / *A. R. Raffray, R. Petzoldt, J. Pulsifer, M. S. Tillack, X. Wang*
- 117 Effects of Surface Evaporation and Condensation on the Dynamics of Thin Liquid Films for the Porous Wetted Wall Protection Scheme in IFE Reactors / *Seungwon Shin, S. I. Abdel-Khalik, Damir Juric, M. Yoda, ARIES Team*
- 127 Numerical Study of Shock-Cylinder Banks Interactions / *S. P. Wang, M. H. Anderson, J. G. Oakley, R. Bonazza*
- 132 Experiments on High-Speed Liquid Films Over Downward-Facing Wetting and Nonwetting Surfaces / *J. K. Anderson, M. Yoda, S. I. Abdel-Khalik, D. L. Sadowski, ARIES Team*
- 138 Experimental Target Injection and Tracking System / *R. W. Petzoldt, N. B. Alexander, T. J. Drake, D. T. Goodin, K. Jonestrask, R. W. Stemke*

FUSION MATERIALS

- 145 Mechanical Properties of JLF-1 Reduced-Activation Ferritic Steels / *Ryuta Kasada, Hironobu Ono, Hideo Sakesegawa, Takanori Hirose, Akihiko Kimura, Akira Kohyama*
- 150 Radiation Damage Parameters for SiC/SiC Composite Structure in Fusion Nuclear Environment / *M. E. Sawan, L. Snead, S. Zinkle*
- 155 Progress in SiC-Based Ceramic Composites for Fusion Applications / *Yutai Kato, Akira Kohyama, Tatsuya Hinoki, Lance L. Snead*
- 163 Creep Effects in the Toroidal Field Coils of Fire and Other Burning Plasma Tokamaks / *Peter H. Titus, Matteo Salvetti*
- 169 Isentropic Compression Experiment on Aluminum Using the Z-Accelerator / *D. R. Williamson, R. R. Peterson, J. P. Blanchard*

(Continued)

CONTENTS / JULY 2003—VOL. 44, NO. 1

(Continued)

- 175** Synergistic Effect of Displacement Damage, Helium and Hydrogen of Silicon Carbide Composite / *A. Hasegawa, S. Nogami, S. Miwa, K. Abe, T. Taguchi, N. Igawa*
- 181** High Temperature Ion-Irradiation Effects on Microstructural Evolution in β -SiC / *Sosuke Kondo, Keyong Hwan Park, Yutai Katoh, Akira Kohyama*
- 186** Evaluation of Irradiation Effect on Fatigue Performance of Copper Alloys for High Heat Flux Applications / *Meimei Li, James F. Stubbins*
- 191** Effect of Zr on the Irradiated Microstructure and Hardening in 304 Stainless Steel / *J. Gan, J. I. Cole, T. R. Allen, R. B. Dropek, G. S. Was*
- 196** Improvement of High Temperature Mechanical Property by Precipitation Hardening of Reduced Activation Ferritic/Martensitic Steels / *H. Sakasegawa, A. Kohyama, Y. Katoh, M. Tamura, Y. Khono, A. Kimura*
- 201** Ni-Doped F82H to Investigate He Effects in HFIR Irradiation / *Tomotsugu Sawai, Masami Ando, Eiichi Wakai, Kiyoyuki Shiba, Shiro Jitsukawa*
- 206** Charpy Impact Properties of Reduced-Activation Ferritic/Martensitic Steels Irradiated in HFIR up to 20 dpa / *H. Tanigawa, K. Shiba, M. A. Sokolov, R. L. Klueh*
- 211** Mechanical Properties of High Purity SiC Fiber-Reinforced CVI-SiC Matrix Composites / *Tatsuya Hinoki, Edgar Lara-Curzio, Lance L. Snead*
- 219** Microstructure and Hardness Variation in a TIG Weldment of Irradiated F82H / *H. Tanigawa, M. Ando, T. Sawai, K. Shiba, N. Hashimoto, R. L. Klueh*

DIVERTOR AND PLASMA-FACING COMPONENTS

- 227** Thermal Fluid Finite Element Calculations for the European PPCS Divertor Concepts / *Panos J. Karditsas, Neill P. Taylor*
- 232** Experimental Measurements of Helium Retention in Flowing Liquid Lithium / *M. Nieto, D. N. Ruzic, J. P. Allain*
- 237** Crack Growth in First Wall by Cyclic Thermal Stress / *T. Nishimura, T. Hatano, T. Honda, M. Saito*
- 242** Fracture Strength of CuCrZr in High Temperature Environment / *Ryo Suzuki, Masakatsu Saito, Toshihisa Hatano*
- 247** Author Index
