

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 137, NUMBER 3, MARCH 2001

CONTENTS

vii Editorial

TECHNICAL PAPERS

- | | | |
|-----|--|---|
| 227 | A Generalized Fokker-Planck Model for Transport of Collimated Beams | <i>Anil K. Prinja, G. C. Pomraning</i> |
| 236 | Generalized Fokker-Planck Approximations of Particle Transport with Highly Forward-Peaked Scattering | <i>Christopher L. Leakeas, Edward W. Larsen</i> |
| 251 | Multiple Scattering in Clouds: Insights from Three-Dimensional Diffusion/ P_1 Theory | <i>Anthony B. Davis, Alexander Marshak</i> |
| 281 | Variable Eddington Factors and Flux Limiters in Radiative Transfer | <i>Bingjing Su</i> |
| 298 | Discontinuous Finite Element Transport Solutions in Thick Diffusive Problems | <i>Marvin L. Adams</i> |
| 334 | Energy Transport in Matter with Rapidly Changing States | <i>W. Höbel, B. Goel, A. L. Ni, H. Marten</i> |
| 352 | Time-Dependent, One-Speed Transport via Generalized Functions | <i>Noel R. Corngold</i> |
| 359 | Exact P_N Method Solutions | <i>Norman J. McCormick</i> |
| 364 | Classical Perturbation Theory for Monte Carlo Studies of System Reliability | <i>Jeffrey D. Lewins</i> |
| 380 | Studies on Nodal Integral Methods for the Convection-Diffusion Equation | <i>E. P. E. Michael, J. Dorning, Rizwan-Uddin</i> |
| 400 | From Fourier Transforms to Singular Eigenfunctions for Multigroup Transport | <i>B. D. Ganapol</i> |

LETTERS TO THE EDITOR

- | | | |
|-----|--|----------------------------------|
| 411 | Comments on "Resonance Parameter Adjustment Methodology Based on Integral Experiment Analysis" | <i>J. J. Wagschal, Y. Yeivin</i> |
| 413 | Reply to "Comments on 'Resonance Parameter Adjustment Methodology Based on Integral Experiment Analysis' " | <i>P. Blaise</i> |
| 416 | VOLUME 137 AUTHOR AND SUBJECT INDEXES | |
