CONTENTS

Preface ix

PART I: Preliminary Concepts Problems

Chapter 1: Radioactive Decay 3
Chapter 2: Nuclear Models and Nuclear Reactions. 4
Chapter 3: Neutron Sources, Fields, and Interaction Rates 7

PART II: Reactor Statics Problems

Chapter 4: Steady-State Multigroup Neutron Balance Equation 17
Chapter 5: Neutron Diffusion in Nonmultiplying Media 19
Chapter 6: Neutron Diffusion in Multiplying Media (Reactors) 22

PART III: Reactor Dynamics Problems

Chapter 7: Prompt and Delayed Fission Neutrons 33
Chapter 8: Point Kinetics 36
Chapter 9: Source Multiplication Formula 42
Chapter 10: Inhour Equation, Asymptotic Transients, and Reactor Period 45
Chapter 11: Perturbation Formula for Reactivity. 47
Chapter 12: The Prompt-Jump Approximation 53
Chapter 13: Static Reactivity Measurements 58
Chapter 14: Fission Product Poisoning 61
Chapter 15: Reactivity Coefficients 66

APPENDIX A: Detailed Solutions to Problems

Chapter 1 . . . . . A-1
Chapter 2 . . . . . A-2
Chapter 3 . . . . . A-7
Chapter 4 . . . . . A-28
Chapter 5 . . . . . A-33
Chapter 6 . . . . . A-42
Chapter 7 . . . . . A-69
Chapter 8 . . . . . A-79
Chapter 9 . . . . . .A-111
Chapter 10 . . . . . A-124

Chapter 11 . . . . . A-129
Chapter 12 . . . . . A-153
Chapter 13 . . . . . A-166
Chapter 14 . . . . . A-172
Chapter 15 . . . . . A-185

APPENDIX B: Summary of Symbols, Definitions, and Formulas . . . B-1

APPENDIX C: Answers to Problems C-1

References and Bibliography R-1
